WHY IT WORKS

A GIVEAWAY BUILT TO TRAVEL

- A world champion host people already follow.
- A concrete, high value prize with real dates.
- Designed to go viral: free entry means tagging 3 friends who play.
- A clean, transparent entry and draw.

The giveaway pairs a genuine world class experience with a story people want to share. Every stage, from the announcement to the arrival to the gameplay, is a natural moment to post, tag and follow, which is how reach compounds.

WHAT A GIVEAWAY ENGAGEMENT LOOKS LIKE

Example: what one giveaway activation can deliver.

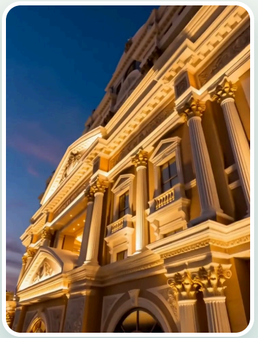

A once in a lifetime giveaway activation, built and run end to end. One campaign, five moving parts. Illustrative example, not the full scope of working with Jamie.

BUILD

LAUNCH

Giveaway goes live across channels.

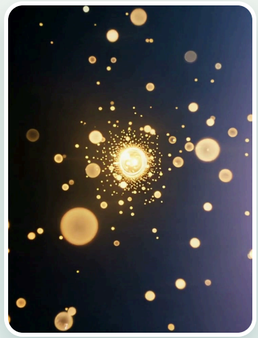

LIVE ACTIVATION

WINNER'S JOURNEY

Documented, brand safe, shareable.

EVERGREEN

Finished assets keep working after.

THE EFFICIENCY CASE

Traditional Q4 media buys the impression. This buys the moment.

Illustrative efficiency comparison against an industry benchmark, not a guaranteed result.

TRADITIONAL Q4 MEDIA SPEND

Rented attention, gone when the advertisement ends.

- ✕ Skippable and easy to ignore, priced per impression.
- ✕ Short lived, the spend disappears when the advertisement ends.
- ✕ Interchangeable creative, nothing an audience keeps.

CPM about $15 to $25

National video and display benchmark, cost per thousand impressions.

VS

EXPERIENTIAL GIVEAWAY SPONSORSHIP

An owned moment fans opt into and share.

- ✓ Authentic, a world champion at the center, not an ad slot.
- ✓ Evergreen, the winner journey and assets keep working after.
- ✓ Viral, earned press and social carry it far past paid reach.

$2 to $3

Blended effective cost per thousand across paid, earned and organic on an experiential activation.
